Special Dispatches to the Arizona Miner, by Western Union and U. S. Military Lines.

Foreign and Domestic.

Washington, March 11.—During his last hours Sumner's intellect was much clearer. He conversed freely with Mr. Har. He said take care of the civil rights bill.

Almost the last words were: Tell Emerson I love and revere him.

Washington, March 13.—Supervising Architect Mullet fully admits that government was swindled in furnishing the stone for the San Francisco mint. Records clearly show that local superintendent Stebbins, alone, is responsible for accepting inferior stone on the contract.

When Mullet reached San Francisco, saw the stone himself, he immediately denounced the swindle, and has ever since urged the Department not to pay another dollar to the contractors. Thus far no settlement has been made with Emery, who admits the stone inferior to sample. It is claimed that Stebbins is having it from another stratum of the quarry than the one from which the sample was taken. Mullet also opposing the inflexibility. Emery's claim is \$33,000, in addition to \$74,000 already paid for flagging.

Mullet is severe in his denunciation of Emery and other California contractors, who, as a class, he thinks the most unreliable he ever had anything to do with. Emery seeking release from the granite contract for appraisement stone, Mullet opposes because Emery's release would give the contract at higher figures to next bidder, Frank M. Brown, who rumor says is Emery's partner.

On Thursday Lieut. Ward sent in report that the command was on the trail at Canana Deloro and intended to take it. Reported eight Apaches driving three head of cattle. The Apaches have been here and there and almost everywhere to the north and northwest of Tucson.

Their trails and thefts as well as one murder are fresh hereabouts.

Col. A. W. Evans, Inspector General, arrived yesterday.

GROWING IN IMPORTANCE.—But few persons are aware of the growing importance of Colorado City or Yuma City, the county seat of Yuma county, Arizona Territory. This place was located by prospectors, many years since by company among whom were numbered Gen. Heintzelman, Major Cross, Geo. F. Hooper, B. M. Harshbarger, James Porter, Capt. Johnston and others, and now the location is becoming valuable. The city is located at the intersection of the Gila and Colorado rivers, in the Territory of Arizona, and immediately opposite Fort Yuma. It is the commercial key to the Territory, and a large and profitable business is transacted there by supplying the interior, north and south of the Gila river. The importance of this place exists in the fact, that to a certain extent, it is the head of navigation of the Colorado river, and supports a regular line of steamships, intersecting ocean steamers, at the mouth of the river. The steamers Newbern and Montana make regular monthly trips from San Francisco to the mouth of the river. Another fact connected with this growing place exists in the location of the Texas and Pacific Railroad, which passes through one of the main streets of the city. It is also said Col Scott has selected this point as a depot and location for machine and work-shops required for the use of the road; and when the road is completed, Colorado City or Yuma City is destined to become a place of vast importance. It now contains a population of about 1,500 souls.

The company originally laying out the place have recently organized and incorporated a company known as the "Colorado Commercial and Land Company." It is composed of some of our most energetic and prominent citizens. The company own five sections of land, with a river front of about twenty miles, embracing some of the finest sugar and cotton lands in the world. The grant includes the city plat. As the company is entirely free from debt, and with a perfect title to this large and valuable property, the stock has not been forced on the market; in fact, none is offered for sale, excepting in a few instances and among friends, as it is "paid up" and unassessable.—[S. F. Examiner.]

LOS ANGELES STAR.—The daily edition of the Star comes to us greatly enlarged and improved—sure signs of prosperity, which its proprietor, Major B. C. Truman, richly deserves.

Dispatches to the San Francisco Chronicle say that "the President has nominated Edward F. Dunne to be Chief Justice of the Supreme Court of Arizona, and M. P. Berry to be Collector of Customs for the district of Alaska."

POSTAL AGENTS.—What means this gathering of Postal agents at San Diego, California? No less than three of them arrived in this city a few days ago.

To cure neuralgia, take the bark of the peach tree, pound it and steep in water. Hold the face over it, so as to thoroughly bathe it in the ascending steam. It is a certain cure.

Los Angeles people seem determined upon building a railroad to the mining regions of Inyo county.

A recent earthquake at Howland Flat, Cal., caused a fissure 1,000 feet long, in some places four inches wide at the surface and ten feet deep.
